

Braian Gonzales

Full Stack Developer

<https://braiangonzales.netlify.app/>

Personal Profile

Extremely motivated to constantly develop my skills and grow professionally as a Full-Stack Developer in the Object Oriented and Functional programming paradigms.

I am a proactive person, very decisive, passionate about programming and I always seek to give a little more every day.

I am confident in my ability to learn and generate interesting ideas.

Career Summary

DIGITAL MAIN

2019 al 2021

- Contribution to performance improvements, code cleaning and new functionalities in the **BILAN Online Financial Statements** platform.
<http://aplicacion.bilan.com.ar/>
- Start-to-finish development of the **Planeon Mobile** application and its **Rest API** (for order loading and collections)
- **Odoo ERP** Software deployments and implementations on **Linux Cloud Servers**.

Academic Backgrounds

ENG. SYSTEMS

2021

After my experience with subjects related to programming in Electronic Engineering and the time that I have been working in programming, I discovered what I am passionate about, that is why I decided to change to Systems Engineering.

ENG. ELECTRONIC

2015 al 2019

I attended until the third year of my degree and then I decided to change to Systems. During the last year of study I developed an automated Irrigation System with Arduino Mega, programmed with Arduino IDE and creation of user interface with Processing, this led me to achieve the highest grade in this subject.

COURSES

2021

- **Full Stack MERN web development at NUMEN Academy (ongoing)**
- **Full Stack Web Development with Python and JavaScript at PolOTIC Misiones.**
Final project (Ecommerce): <https://github.com/BraianMG/JaguareteKaa>
Certificate: <https://t.ly/NmtE>
- **Scrum Fundamentals Certified at SCRUMstudy.**
Certificate: <https://t.ly/jleF>
- I also did and am doing various courses on Udemy that address specific topics in some frameworks and thus continue to develop my skills.
